

## SUMMARY

Full-stack Javascript developer with extensive experience in creating advanced web apps. Well-versed in AngularJs, NestJs, NodeJs, MongoDB, HTML, and CSS.

## EXPERIENCE

### Full-stack Javascript Developer

Phaedra Solutions, Lahore, Pakistan.

Nov, 2022 - Present

As a MEAN stack developer, I design and maintain scalable web applications using the latest web technologies such as MongoDB, Express.js, Angular, and Node.js. I collaborate with cross-functional teams and ensure projects are delivered on time and to high-quality standards. I conduct code reviews and implement the latest best practices to deliver efficient and user-friendly applications.

### Intern - IT

LUMS, Lahore, Pakistan

Jan, 2021 - July, 2021

As an intern, I was responsible for managing resources, maintaining effective communication within the department, and ensuring the smooth functioning of computer labs for students.

### Intern - Marketing

OAKLIV, Islamabad, Pakistan

June, 2021 - July, 2021

As part of my role, I was responsible for creating posters, developing marketing strategies, and managing social media accounts.

## PROJECTS

**OnTrack** - OnTrack is an integrated event technology ecosystem that provides event organizers with full control over their operations and critical event data. The system combines powerful technologies and customizable features for on-site and off-site operational efficiency.

**PetsWala** - A responsive website (a course project) that offers various pet-related services, such as the ability to purchase pet products, schedule appointments with veterinarians, and connect with rescue services.

**CarBar** - An online platform (a course project) for the commerce of vehicles.

## SKILLS & TOOLS

Javascript, Typescript, NodeJs, AngularJs, NestJs, ExpressJs, MongoDB, ReactJs, Git, Github, Postman, Babel Edit, Django, Python, C++, HTML, CSS, Bootstrap, Figma, Data structures, Algorithms, Object Oriented Programming, Agile Development Methodology.
